Spiritual Assesment Summary

The client indicates a strong sense of spirituality, affirming a belief in a higher power and regular engagement in meditation or prayer. This spiritual orientation can be a significant resource in their overall well-being and recovery process. The client's spiritual practices provide a sense of purpose, hope, and resilience, which can positively impact their mental and emotional health. Recognizing the client's spirituality, it is recommended to integrate their beliefs and practices into the treatment plan. This might involve encouraging the continuation of meditation or prayer as a coping strategy and exploring any additional spiritual resources or community support that align with the client's beliefs. By acknowledging and incorporating the client's

Step Into Recovery Centers INC Consent For Pregnancy Test

It is the policy of Step Into Recovery Centers INC to have female clients tested for pregnancy upon admission and suspicion.

PROCEDURE:

1. Upon admission, clients will self-administer a urine dipstick pregnancy test with the supervision of a same-sex staff member.
2. Results will be documented within the lab's section in the clinical record.
3. The Medical Doctor on staff will review signs to identify conflicts of medications prior to prescribing.
4. Positive Pregnancy Test: If a client is found to be pregnant, an immediate medical conference will be held with the clinical staff and client within 24 hours.

My signature below indicates I have acknowledged Step Into Recovery Centers INC's pregnancy test protocols and consent to this testing.

I understand that my refusal to self-administer this test could result in my being asked to leave Step Into Recovery Centers INC and to forfeit all my rights and privileges as a client.

Step Into Recovery Centers INC Consent for Treatment

I authorize Step Into Recovery Centers INC to perform all clinical services deemed necessary in the evaluation of program/client appropriateness.

I have been advised and understand that Step Into Recovery Centers INC adheres to all Federal Laws of confidentiality and any suspected violations of the law must and will be reported.

I give my consent for the duration of my treatment and 90 days after discharge for Step Into Recovery Centers INC to release information regarding my progress and location in treatment to Referring Agencies, Probation, and Officers of the Court for the purpose of assuring my compliance with an order for treatment (if requested).

I agree to submit a urine/take an alcohol test, if requested, for drug testing. I understand that failure to do so could result in negative termination. Urine/alcohol results may be utilized as treatment interventions or may be completed as determined by external requirements.

I understand that I am responsible for all fees for the duration of my program.

I understand that if I fail to follow any communicable-disease-related referrals, Step Into Recovery Centers INC will need to report such to the County Health Department.

In case of a severe medical emergency, I have listed an emergency medical contact on a release form and do authorize Step Into Recovery Centers INC to contact that party should such an emergency occur.

Step Into Recovery Centers INC Group Confidentiality

To reinforce the feelings of closeness and willingness to share with others your feelings, thoughts, and consequences of your dependency, confidentiality is a must in group therapy. Use this as your golden rule: **What is said in Group, stays in Group**
To break this rule violates the trust of the total group and the effectiveness of group therapy is lost.

The following guidelines will help you maintain this rule:

1. Group issues are not discussed with others outside your group.
2. Do not discuss group issues with your roommate unless he/she is in your group.
3. Do not discuss at any outside meetings or places where others may overhear you.

Your group therapists have the same responsibilities for group confidentiality as you, with the exception that your therapists share group issues and your participation in the group process with other staff members. This is a vital part of the staff team's approach to assist you in your recovery.

The staff values your confidentiality so highly that anyone who breaks confidentiality - whether to another patient of Step Into Recovery Centers INC or to family, significant others, etc., may be subject to discharge from this program.

Step Into Recovery Centers INC Notice of Privacy Practices

Your Information. Your Rights. Our Responsibilities.

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

Your Rights

When it comes to your health information, you have certain rights. This section explains your rights and some of our responsibilities to help you.

Get an electronic or paper copy of your medical record

- You can ask to see or get an electronic or paper copy of your medical record and other health information we have about you. Ask us how to do this.
- We will provide a copy or a summary of your health information, usually within 30 days of your request. We may charge a reasonable, cost-based fee.

Ask us to correct your medical record

- You can ask us to correct health information about you that you think is incorrect or incomplete. Ask us how to do this.
- We may say “no” to your request, but we’ll tell you why in writing within 60 days.

Request confidential communications

- You can ask us to contact you in a specific way (for example, home or office phone) or to send mail to a different address.
- We will say “yes” to all reasonable requests.

Ask us to limit what we use or share

- You can ask us **not** to use or share certain health information for treatment, payment, or our operations.
 - We are not required to agree to your request, and we may say “no” if it would affect your care.
- If you pay for a service or health care item out-of-pocket in full, you can ask us not to share that information for the

purpose of payment or our operations with your health insurer.

- We will say “yes” unless a law requires us to share that information.

Get a list of those with whom we've shared information

- You can ask for a list (accounting) of the times we've shared your health information for six years prior to the date you ask, who we shared it with, and why.
- We will include all the disclosures except for those about treatment, payment, and health care operations, and certain other disclosures (such as any you asked us to make). We'll provide one accounting a year for free but will charge a reasonable, cost-based fee if you ask for another one within 12 months.

Get a copy of this privacy notice

- You can ask for a paper copy of this notice at any time, even if you have agreed to receive the notice electronically. We will provide you with a paper copy promptly.

Choose someone to act for you

- If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information.
- We will make sure the person has this authority and can act for you before we take any action.

File a complaint if you feel your rights are violated

- You can complain if you feel we have violated your rights by contacting us using the information on page 1.
- You can file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting www.hhs.gov/ocr/privacy/hipaa/complaints/.
- We will not retaliate against you for filing a complaint.

Your Choices

For certain health information, you can tell us your choices about what we share. If you have a clear preference for how we share your information in the situations described below, talk to us. Tell us what you want us to do, and we will follow your instructions.

In these cases, you have both the right and choice to tell us to:

- Share information with your family, close friends, or others involved in your care
- Share information in a disaster relief situation
- Include your information in a hospital directory
- Contact you for fundraising efforts

If you are not able to tell us your preference, for example, if you are unconscious, we may go ahead and share your information if we believe it is in your best interest. We may also share your information when needed to lessen a serious and imminent threat to health or safety.

In these cases we *never* share your information unless you give us written permission:

- Marketing purposes
- Sale of your information

- Most sharing of psychotherapy notes

In the case of fundraising:

- We may contact you for fundraising efforts, but you can tell us not to contact you again.

Our Uses and Disclosures

How do we typically use or share your health information? We typically use or share your health information in the following ways.

Treat you

- We can use your health information and share it with other professionals who are treating you.

Example: A doctor treating you for an injury asks another doctor about your overall health condition.

Run our organization

- We can use and share your health information to run our practice, improve your care, and contact you when necessary.

Example: We use health information about you to manage your treatment and services.

Bill for your services

- We can use and share your health information to bill and get payment from health plans or other entities.

Example: We give information about you to your health insurance plan so it will pay for your services.

How else can we use or share your health information? We are allowed or required to share your information in other ways – usually in ways that contribute to the public good, such as public health and research. We have to meet many conditions in the law before we can share your information for these purposes.

For more information see www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html.

Help with public health and safety issues

- We can share health information about you for certain situations such as:
 - Preventing disease
 - Helping with product recalls
 - Reporting adverse reactions to medications
 - Reporting suspected abuse, neglect, or domestic violence
 - Preventing or reducing a serious threat to anyone's health or safety

Do research

- We can use or share your information for health research.

Comply with the law

- We will share information about you if state or federal laws require it, including with the Department of Health and Human Services if it wants to see that we're complying with federal privacy law.

Respond to organ and tissue donation requests

- We can share health information about you with organ procurement organizations.

Work with a medical examiner or funeral director

- We can share health information with a coroner, medical examiner, or funeral director when an individual dies.

Address workers' compensation, law enforcement, and other government requests

- We can use or share health information about you:
 - For workers' compensation claims
 - For law enforcement purposes or with a law enforcement official
 - With health oversight agencies for activities authorized by law
 - For special government functions such as military, national security, and presidential protective services

Respond to lawsuits and legal actions

- We can share health information about you in response to a court or administrative order, or in response to a subpoena.

Our Responsibilities

- We are required by law to maintain the privacy and security of your protected health information.
- We will let you know promptly if a breach occurs that may have compromised the privacy or security of your information.
- We must follow the duties and privacy practices described in this notice and give you a copy of it.
- We will not use or share your information other than as described here unless you tell us we can in writing. If you tell us we can, you may change your mind at any time. Let us know in writing if you change your mind.

For more information see www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html.

Changes to the Terms of This Notice

We can change the terms of this notice, and the changes will apply to all information we have about you. The new notice will be available upon request, in our office, and on our web site.

Effective Date: October 11, 2013

This Notice of Privacy Practices applies to the following organizations.

Step Into Recovery Centers INC Uses and Disclosure of Health Information

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED
AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.**

PLEASE REVIEW IT CAREFULLY

This notice is effective as of April 15, 2003

USES AND DISCLOSURE OF HEALTH INFORMATION

Step Into Recovery Centers INC is committed to protecting the privacy of the personal and health information we collect or create as part of providing health care services to our clients, known as "Protected Health Information" or "PHI". PHI typically includes your name, address, date of birth, billing arrangements, care, and other information that relates to your health, health care provided to you, or payment for the health care provided to you. PHI DOES NOT include information that is de-identified or cannot be linked to you.

This notice of Health Information Privacy Practices (the "Notice") describes Step Into Recovery Centers INC's duties with respect to the privacy of PHI, Step Into Recovery Centers INC's use of and disclosure of PHI, client rights, and contact information for comments, questions, and complaints.

Step Into Recovery Centers INC'S PRIVACY PROCEDURES AND LEGAL OBLIGATIONS

Step Into Recovery Centers INC obtains most of its PHI directly from you, through care applications, assessments, and direct questions. We may collect additional personal information depending upon the nature of your needs and consent to make additional referrals and inquiries. We may also obtain PHI from community health care agencies, other governmental agencies, or health care providers as we set up your service arrangements.

Step Into Recovery Centers INC is required by law to provide you with this notice and to abide by the terms of the Notice currently in effect. Step Into Recovery Centers INC reserves the right to amend this Notice at any time to reflect changes in our

privacy practices. Any such changes will be applicable to and effective for all PHI that we maintain including PHI we created or received prior to the effective date of the revised notice. Any revised notice will be mailed to you or provided upon request.

Step Into Recovery Centers INC is required by law to maintain the privacy of PHI. Step Into Recovery Centers INC will comply with federal law and will comply with any state law that further limits or restricts the uses and disclosures discussed below. In order to comply with these state and federal laws, Step Into Recovery Centers INC has adopted policies and procedures that require its employees to obtain, maintain, use and disclose PHI in a manner that protects client privacy.

USES AND DISCLOSURES WITH YOUR AUTHORIZATION

Except as outlined below, Step Into Recovery Centers INC will not use or disclose your PHI without your written authorization. The authorization form is available from Step Into Recovery Centers INC (at the address and phone number below). You have the right to revoke your authorization at any time, except to the extent that Step Into Recovery Centers INC has taken action in reliance on the authorization.

The law permits Step Into Recovery Centers INC to use and disclose your PHI for the following reasons without your authorization:

For Your Treatment: We may use or disclose your PHI to physicians, psychologists, nurses and other authorized healthcare professionals who need your PHI in order to conduct an examination, prescribe medication, or otherwise provide health care services to you.

To Obtain Payment: We may use or disclose your PHI to insurance companies, government agencies, or health plans to assist us in getting paid for our services. For example, we may release information such as dates of treatment to an insurance company in order to obtain payment.

For Our Health Care Operations: We may use or disclose your PHI in the course of activities necessary to support our health care operations such as performing quality checks on your employee services. We may also disclose PHI to other persons not in Step Into Recovery Centers INC's workforce or to companies who help us perform our health services (referred to as "Business Associates") we require these business associates to appropriately protect the privacy of your information.

As Permitted or Required By The Law: In some cases, we are required by law to disclose PHI. Such as disclosers may be required by statute, regulation court order, government agency, we reasonably believe an individual to be a victim of abuse, neglect, or domestic violence: for judicial and administrative proceedings and enforcement purposes.

For Public Health Activities: We may disclose your PHI for public health purposes such as reporting communicable disease results to public health departments as required by law or when required for law enforcement purposes.

For Health Oversight Activities: We may disclose your PHI in connection with governmental oversight, such as for licensure, auditing, and the administration of government benefits.

To Avert Serious Threat to Health and Safety: We may disclose PHI if we believe in good faith that doing so will prevent or lessen a serious or imminent threat to the health and safety of a person or the public.

Disclosures of Health-Related Benefits or Services: Sometimes we may want to contact you regarding service reminders, health-related products or services that may be of interest to you, such as health care providers or settings of care or to tell you about other health-related products or services offered at Step Into Recovery Centers INC. You have the right not to accept such information.

Incidental Uses and Disclosures: Incidental uses and disclosures of PHI are those that cannot be reasonably prevented are limited in nature and that occur as a by-product of a permitted use or disclosure. Such incidental uses and disclosures are permitted as long as Step Into Recovery Centers INC use reasonable safeguards and use or disclose only the minimum amount of PHI necessary.

To Personal Representatives: We may disclose PHI to a person designated by you to act on your behalf and make decisions about your care in accordance with state law. We will act according to your written instructions in your chart and our ability to verify the identity of anyone claiming to be your personal representative.

To Family and Friends: We may disclose PHI to persons that you indicate are involved in your care or the payment of care. These disclosures may occur when you are not present, as long as you agree and do not express an objection. These disclosures may also occur if you are unavailable, incapacitated, or facing an emergency medical situation and we determine that a limited disclosure may be in your best interest. We may also disclose limited PHI to a public or private entity that is authorized to assist in disaster relief efforts in order for that entity to locate a family member or other person that may be involved in caring for you. You have the right to limit or stop these disclosures.

YOUR RIGHTS CONCERNING PRIVACY

Access to Certain Records: You have the right to inspect and copy your PHI in a designated record set except where State law may prohibit client access. A designated record set contains medical and billing and case management information. If we do not have your PHI recordset but know who does, we will inform you how to get it. If our PHI is a copy of the information maintained by another health care provider, we may direct you to request the PHI from them. If Step Into Recovery Centers INC produces copies for you, we may charge you up to \$1.00 per page up to a maximum fee of \$50.00. Should we deny your request for access to the information contained in your designated record set, you have the right to ask for the denial to be reviewed by another healthcare professional designated by Step Into Recovery Centers INC.

Amendments to Certain Records: You have the right to request certain amendments to your PHI if, for example, you believe

a mistake has been made or a vital piece of information is missing. Step Into Recovery Centers INC is not required to make the requested amendments and will inform you in writing of our response to your request.

Accounting of Disclosures: You have the right to receive an accounting of disclosures of your PHI that were made by Step Into Recovery Centers INC for a period of six (6) years prior to the date of your written request. This accounting does not include for purposes of treatment, payment, health care operations, or certain other excluded purposes, but includes other types of disclosures, including disclosures for public health purposes or in response to a subpoena or court order.

Restrictions: You have the right to request that we agree to restrictions on certain uses and disclosures of your PHI, but we are not required to agree to your request. You cannot place limits on uses and disclosures that we are legally required or allowed to make.

Revoke Authorizations: You have the right to revoke any authorizations you have provided, except to the extent that Step Into Recovery Centers INC has already relied upon the prior authorization.

Delivery by Alternate Means or Alternate Address: You have the right to request that we send your PHI by alternate means or to an alternate address.

Complaints & How to contact us: If you believe your privacy rights have been violated, you have the right to file a complaint by contacting Step Into Recovery Centers INC at the address and/or phone number indicated below. You also have the right to file a complaint with the Secretary of the United States Department of Health and Human Services in Washington, D.C. Step Into Recovery Centers INC will not retaliate against you for filing a complaint.

If you believe your privacy rights have been violated, you may make a complaint by contacting [REDACTED], HIPAA Privacy Officer at () - or the Secretary for the Department of Health and Human Services. No individual will be retaliated against for filing a complaint.

Step Into Recovery Centers INC Universal Precautions for HIV

Universal Precautions refer to the usual and ordinary steps we need to take in order to reduce the risk of infection with HIV, the virus that causes AIDS. These measures are intended to prevent transmission of HIV.

The prevention of the transmission of HIV is based on the avoidance of skin and mucous membrane contact with blood and body fluids.

Protecting yourself from HIV

- Avoid risky behavior
- Protect yourself from sharp injuries
- Wear gloves when in contact with body fluids, if possible
- Wear mask and eye protection when splash injuries are possible
- Call on trained individuals to clean up blood spills

Step Into Recovery Centers INC Universal Precautions for Infection Control

Universal Precautions refer to the usual and ordinary steps you need to take in order to reduce the risk of infectious diseases such as HIV or Hepatitis C.

The prevention of transmission of infectious diseases is based on the avoidance of skin and mucous membrane contact with blood and other body fluids.

AVOID UNNECESSARY RISKS

- If a fellow patient or client needs assistance, please call a staff member immediately.
- When avoidable, don't expose yourself to another person's blood or body fluids.
- Never share needles, razors, or any other *personal* sharp objects.
- Always call on trained individuals to clean up blood or other body fluid spills.

PROTECT YOURSELF

- Use barrier protection to prevent skin and mucous membrane contact with blood and other body fluids.
- Wear face protection if blood or body fluid droplets may be generated during a procedure.
- Wear protective clothing if blood or body fluids may be splashed during a procedure.
- Wash hands and skin immediately and thoroughly if contaminated with blood or body fluids.
- Wash hands immediately after gloves are removed.
- Use care when handling sharp instruments and needles. Place used sharps in labeled, puncture-resistant containers.
- If you have sustained an exposure or puncture wound, immediately flush the exposed area and notify a staff member.

Attendees: 26 Absent: 0

Topic
Process Group
Individual Assessment/Intervention
Today's session focused on developing effective coping skills. Participants identified personal stressors and explored various coping strategies such as deep breathing, journaling, and physical activity. We discussed the importance of emotional regulation and self-care. Interactive exercises allowed clients to practice these techniques in real-time. The group demonstrated significant progress in adopting healthier coping mechanisms and showed a strong commitment to implementing these skills in their daily lives.
Group Description
Clients are given the opportunity to work together to communicate the functionality of daily life and the occurrences of events and triggers that may interfere with treatment. Clients give communication with peer on the step and importance of setting and striving to reach goals and encourage peers as well as encouraging others and sharing resources

- The nature of my mental health condition, the purpose of the treatment, and the approximate length of care.
- The reasons for prescribing the medication(s), including the likelihood of my condition improving or not improving with the medication.
- The proposed medications, dosages, and frequency.
- Common short and long-term side effects (including awareness of risks of Tardive Dyskinesia) of the proposed medication, including contraindications and clinically significant interactions with other medications.
- Alternative medications.
- The off-label use of medication.
- I was also given specific written information about the recommended medication(s). I understand that this is only a partial listing of information, and I should discuss all medical problems and medication(s) that I take with my physician.

I can refuse to take the medication(s) at any time if I tell any member of the medical staff.

☐ **I DO** consent to the use of the above medication(s). I give consent voluntarily and understand that this may be revoked orally or in writing at any time.

☐ **I DO NOT** consent to the use of any of the above medication(s).

HIV/AIDS/TB/STD Informational Fact Sheet (Pre-Test Counseling)

Here are some facts about HIV/AIDS/TB/STDs. Please read carefully. Your counselor will review the information with you and answer any questions or clarify any areas that may not be clear. This handout is yours to take with you. You may wish to share this information with your sexual partner or other significant individuals.

WHAT IS IT?

AIDS (Acquired Immune Deficiency Syndrome) is a disease caused by a virus called HIV (HumanImmunodeficiency Virus).

- When a person is infected with HIV, the virus infects and can kill certain cells in the immune system called T- helper cells. This weakens the immune system so that other opportunistic infections can occur. The HIV-infected person is said to have AIDS when they become sick with other specific infections or when the number of T-helper cells has dropped below 200.
- There is no cure for HIV. Although people do not die from HIV, most people who become infected with HIV will eventually develop AIDS. You can have HIV for several years without showing any signs. That means you can have HIV and not even know it. You can also spread HIV during that time to other people. As of 1996, about half of everybody that got HIV would develop AIDS within ten years. Now, with the help of new drug treatments, the time between infection of HIV and the time it takes to develop AIDS can be even longer.

WHO CAN GET HIV/AIDS?

People of any sex, age, and race can get HIV/AIDS. As a matter of fact, it is the ninth leading cause of death among people between the ages of 15-19 and the fifth leading cause of death between the ages of 20-24. HIV/AIDS is the leading cause of death for both black males and females between the age of 25-44. Florida has the third-highest rate of AIDS cases in the country, with estimates as high as 1 in 50 people.

PEOPLE WITH THE HIGHEST RISK OF AIDS AND HIV INFECTIONS ARE:

- People who share needles
- Men who have sex with other men
- Babies born to mothers who have HIV infections
- People who receive blood transfusions or blood products before 1985

- Anyone who has sex with anyone who has or is at risk for AIDS or HIV infection

HOW IS HIV SPREAD?

HIV is spread through bodily fluids like blood, pus, semen, menstrual blood, vaginal secretions, and breast milk. If your blood comes into contact with any body fluids of an infected person, you may become infected with HIV. You may expose yourself to HIV if you do any of the following with a person who has HIV.

- Have unprotected sex (sex without a condom)

You can get HIV from oral, anal, or vaginal sex, or from sharing sex toys with a person who is infected.

- Share a needle or a syringe with someone who is infected.

This could be sharing a needle to inject drugs, to make tattoos, or to pierce your ear.

- Get infected blood into an open cut or mucous membrane.

This is rare and usually occurs with healthcare workers when it does happen.

- From a mother to a baby.

This can occur before, during birth, or by breast-feeding.

SYMPTOMS

Certain symptoms and conditions may be associated with HIV/AIDS

These symptoms and conditions may include: fever, weight loss, swollen lymph glands in the neck, underarms, or groin, white patches in the mouth (thrush), certain cancers (Kaposi's sarcoma, certain lymphomas, certain invasive cervical cancers), and infections (Pneumocystis pneumonia, certain types of meningitis, toxoplasmosis, certain blood infections, TB, etc...)

TESTING

A blood test may tell if you have HIV infection or AIDS.

You can get an HIV blood test at your doctor's office or at Counseling and Testing Sites throughout Florida. Getting tested is easier than ever and can be done confidentially or anonymously which means no one else will even know your name. They may take a blood sample OR they may simply take a sample of your saliva with a swab. Test results take about 2 weeks to come back and then you can find out the results. Knowing can give you peace of mind and protect other people that are important to you.

Remember, anyone can get HIV/AIDS. Take care of yourself. Protect yourself.

WHAT DOES THE TEST MEAN?

This test detects antibodies to HIV, not the virus itself. Antibodies are the body's reaction to the virus.

A **POSITIVE** test means that a person is infected with HIV and can pass it to others. By itself, a positive test does not mean that a person has AIDS, which is the most advanced stage of HIV infection.

A **NEGATIVE** test means that antibodies to HIV were not detected. This usually means that the person is not infected with HIV. In some cases, however, the infection may have happened too recently for the test to turn positive. The Blood test usually turns positive within 1 month after infection and in almost all cases within 3 months. Therefore, if you were infected very recently, a negative test result could be wrong.

FALSE RESULTS (a negative test in someone who is infected, or a positive test in someone who is not infected) are rare. Indeterminate results (when it is unclear whether the test is positive or negative) also are rare. When a test result does not seem to make sense, a repeat test or special confirmatory tests may help to determine whether a person is or is not infected.

BENEFITS OF BEING TESTED- There are substantial benefits to being tested. Most infected persons may benefit from medications that delay or prevent AIDS and other serious infections. Test results also can help people make choices about contraception or pregnancy. Therefore, all infected persons should have a complete medical checkup, including tests of the immune system; to help their health care providers recommend the best health care. There are other reasons to be tested. Even though everyone should follow safer sex guidelines whether or not they are infected with HIV, many persons find that knowing their test results helps them to protect their partners and themselves. Some persons want to know their test results before beginning a new sexual relationship or becoming pregnant. Others will be reassured by learning that they are not infected.

RISKS AND DISADVANTAGES of BEING TESTED- Many persons with positive or indeterminate test results will experience stress, anxiety, or depression. Some persons with negative tests may continue or increase unsafe behaviors, which would increase the risk of HIV infection. Some persons are afraid that their test results will get into the wrong hands, and that discrimination might result. For these reasons, you should consider your social supports (such as family and friends) and your insurance needs before you are tested.

HOW DO I PROTECT MYSELF?

The best way to protect yourself is to abstain from sex and do not inject drugs.

Here are some ways of limiting your risk of becoming infected with HIV:

- Practice safer sex -(Remember THERE IS NO RISK-FREE SEX!)
 - Have sex with one uninfected partner who only has sex with you.
 - ALWAYS use a barrier for protection.
 - A condom is the most protective prevention strategy. A condom will NOT GUARANTEE that you will not be exposed to HIV but aside from not having sex at all, a condom is your best defense. Be sure to use a condom for oral sex too!
- Use a water-based lubricant such as KY Jelly, Astroglide, or Wet. Don't use an oil-based lubricant (Vaseline, Crisco,

chocolate syrup, etc.). Oil-based lubricants will cause the condom to break down making holes in the condom that HIV can get through.

- Don't use 2 condoms at the same time.
 - Use latex gloves for hand sex and never use these more than once. When you are done with them throw them in the trash.
 - Don't share needles, razors, or toothbrushes. Something to think about:

When you have sex with someone, you could be exposing yourself to everyone that person has had sex with for at least the past 10 years and everyone those people have had sex with as well.

Don't use drugs (especially drugs you have to inject)

- Using drugs weakens your immune system and makes your body less able to protect itself from becoming infected with HIV.
 - Using drugs can affect your ability to make good decisions and you might be more likely to get yourself involved in behavior that will put you at risk.
 - If you decide to still use despite these dangers, do not share needles. If you aren't sure if the needles you are using are safe and you decide to use anyway, washing your paraphernalia (works) in a solution of bleach and then rinse it with water very well 3 times MAY help reduce your chances of contracting HIV. You may want to consider getting treatment for your drug use.

When cleaning up blood or other bodily fluids:

- Practices called Universal Precaution and Standard Precautions, such as the use of:
 - Wearing gowns gloves and goggles and always wash your hands thoroughly after contact.
 - Always disinfect any areas that may have had blood or other bodily fluids on them thoroughly.

WHAT IF I'M PREGNANT? If you are pregnant see a doctor. If you have HIV, you can pass it on to your baby before birth, during birth, or through breastfeeding. But there are medications that can make the chances you will infect your baby much smaller. Talk to a doctor and get tested for HIV as soon as possible if you think you are pregnant or if you want to get pregnant.

WAYS I WON'T GET HIV:

- Shaking hands.
- Eating in a restaurant.
- Using restrooms.
- Donating blood.
- Being bitten by a mosquito or other bug.
- Dry kissing.
- Casual contact like living in the same household, or working with a person who carries HIV. Unless you are exposed to body fluids, you are not at risk for HIV infection.

- In 2003, 6,654 HIV cases were reported in Florida.
- Males account for 64% of the cumulative reported HIV cases, and females account for 36%. The male-to female ratio is 1.8:1.
 - Of the cumulative number of HIV cases, 55% are among blacks, 28% are among whites, and 17% are among Hispanics.
 - In 2003, there were 301,461 HIV tests performed by county public health departments, with 2.2% of the tests being positive.
 - Approximately 100,000 persons, or roughly 11% of the national total, are currently living with infection in Florida.

Tuberculosis

Tuberculosis (TB) is a disease caused by a bacterium called *Mycobacterium Tuberculosis-Tuberculosis* (TB) is a disease that is spread from person to person through the air. TB usually affects the lungs. The bacteria is put into the air when a person with TB of the lung coughs, sneezes, laughs, or sings. TB can also affect other parts of the body, such as the brain, the kidney, or the spine. Tuberculosis is a disease that can be cured if treated properly.

TB can affect anyone of any age-Anyone can get TB, but some people are at higher risk. Those at higher risk include:

- Infants and small children
- People who share the same breathing space (such as family members, friends, coworkers) with someone who has TB disease
- People with low income who live in crowded conditions, have poor nutrition and have poor health care
- Homeless people
 - People born in countries where a lot of people have TB
 - Nursing home residents
 - Prisoners
 - Alcoholics and injection drug users
 - People with medical conditions such as diabetes, kidney failure, and those with weakened immune systems (such as HIV or AIDS)

The symptoms of TB disease may include:

Feeling weak or sick, rapid weight loss (over a few weeks or months), fever, or night sweats. Symptoms of TB of the lungs may include: cough, chest pain, or coughing up blood. Other symptoms depend on the particular part of the body that is affected.

TB infection is different than TB disease:

People with TB disease are sick from bacteria that are active in their body. They usually have one or more of the symptoms of TB. These people are often capable of giving the infection to others. Medications can cure TB disease; usually three or more medications are given to treat TB disease. People with TB infection (without disease) have the bacteria that cause TB in their body. They are not sick because the germ lies inactive in the body. They cannot spread the germ to others. Medications are often prescribed for these people to prevent them from developing TB disease in the future. **A skin test can tell if you have TB infection:**

You can get a TB skin test from a doctor or local health department. A negative test usually means the person is not infected. However, the test may be falsely negative in a person who has been recently infected (it usually takes 2 to 10 weeks after exposure to a person with TB disease for the skin test to be positive). The test may also be falsely negative if the person's immune system is not working properly.

A positive skin test reaction usually means that the person has been infected with TB. It does not necessarily mean that the person has TB disease. Other tests, such as an x-ray or sputum sample, are needed to see if the person has TB disease.

If you have TB infection or disease:

- Do all the required tests that your doctor orders.
- Stay at home until your doctor tells you it is okay to return to work or school. Do not have visitors (especially children) until your doctor says it is okay.
- Keep all your medical appointments.
- Take all your TB medications as prescribed. In Maryland, the local health department works with doctors to treat almost all people with TB disease. The local health department will provide the correct antibiotics and make sure they are taken correctly. Medications must be taken for long periods of time (6 months or more).

STD Frequently Asked Questions

All of these diseases are passed on by having unprotected sex (any kind of sex) with someone who is infected. You cannot tell someone is infected by his or her looks!! Remember, STDs including HIV (the virus which causes AIDS) are passed on by having unprotected sex.

Primary Syphilis

- *Infectious agent is the spirochete Treponema pallidum.*
 - *Symptoms -non-painful sore on the genital area (outside or inside) or on the lip or inside the mouth, caused by sexual contact with someone who has a primary syphilis sore.*

- *Frequently asked questions -*

- *Do I always know I have it? No, the sore may be where you can't see it (inside the vagina, for example).*
- *Does the sore last a long time? No, the sore is only present for one or two weeks, then no symptoms until the next stage, secondary syphilis.*
- *Can a pregnant woman pass syphilis on to her unborn baby? Yes, a pregnant woman with syphilis who is not treated early enough can pass syphilis on to her baby, who can be born critically ill.*

Secondary Syphilis

- Infectious agent is the same as primary syphilis above.
- Symptoms -non-painful, non-itchy rash typically on palms of hands, soles of feet, may be anywhere on body. Rash is often spots that are darker than the normal skin color.
- Frequently asked questions -
 - Is the rash contagious? Yes, the rash is very contagious.
 - Is syphilis curable? Yes, it is easily curable with the right type and amount of penicillin.
 - What if I am allergic to penicillin? Another type of antibiotic may be used.

Herpes

- Infectious agent is the herpes simplex virus.
- Symptoms -painful blisters on the genital area can come and go. Some persons have sores that are so mildly painful that they do not know they have them. Others also can have sores in areas that are not seen, again like in the vagina, or mouth.
- Frequently asked questions -
 - Can I get herpes or pass it on even if there are no sores present? Yes, it may be possible to get it or pass it on even if no sores are present.
 - How long does the infection last? It will remain in your body for the remainder of your life.

You can be infectious to others at periodic times for many years.

Chlamydia

- Infectious agent is Chlamydia trachomatis, bacteria.
- Symptoms -yellow or mucous-like discharge from the vagina or penis. Usually, the discharge is of a small amount. Most persons do not have any symptoms.
- Frequently asked questions -
 - Can Chlamydia cause me to become sterile? Yes, untreated Chlamydia can cause infertility or long-term pelvic pain.
 - Can I have it and not know I have it? Yes, you may not have any symptoms but be infected for several years.

Gonorrhea

- Infectious agent is Neisseria gonorrhea, bacteria.
 - Symptoms -yellow or greenish or mucous-like discharge. A female may have burning on urination or pelvic pain. A male often may have burning with urination and may notice a stain in his underwear.
- Frequently asked questions -
 - Can a male have gonorrhea and not know they have it? Yes, it is possible to not have any symptoms. It is more likely that a female would have milder symptoms, or not have any symptoms than for a male.

Genital warts

- Infectious agent is the human papilloma virus (HPV).
 - Symptoms - cauliflower-like warty growths that may be on the genital area, outside or inside.
- Frequently asked questions -
 - Why do I have these warts and my partner doesn't? It is possible for one person to have genital warts and their partner to be free of warts.
 - I was told that I have an abnormal Pap smear caused by this virus, why didn't I have warts?

There are several types of HPV, some of which cause genital warts and some cause abnormal Pap smears.

- I have heard warts cause cancer, is this true? Yes, some types of HPV do cause cervical

cancers in women and penile cancer in men.

Remember: If you know you have an STD like Herpes or HPV (genital warts) or HIV, you must protect your future partners from infection. You must tell them before having sex and use condoms if you do have sex.

1. To be treated with respect and dignity.
2. To receive timely treatment by qualified professionals.
 - a. Every effort will be made to use the least restrictive, most appropriate treatment available, based on Client needs.
 - b. Each Client shall be afforded the opportunity to participate in activities designed to enhance self-image.
 - c. An individualized treatment plan shall be developed for each Client in accordance with the provisions established for each program component.
3. To receive quality treatment that is best suited to his/her needs and shall include appropriate services, whether they be medical, vocational, social, educational, and/or rehabilitative services.
4. To express by signature an informed consent of the right to release information for communication purposes with other agencies.
5. To receive communication and correspondence from individuals.
6. To privacy for interview/counseling sessions.
7. To practice your religious practices.
8. To be provided humane care and protection from harm.
9. To contract and consult with legal counsel and private practitioners of your choice at your expense.
10. To exercise your constitutional, statutory, and civil rights.
11. To be free of physical restraint or seclusion.
12. To be informed of the nature of treatment or rehabilitation, the known effects of receiving the treatment or rehabilitation, and alternative treatment or rehabilitation programs.
13. To be provided with information on an ongoing basis regarding your treatment or rehabilitation.

14. To be provided services in accordance with standards of practice, appropriate to your needs, and designed to afford you a reasonable opportunity to improve your condition.

15. To confidentiality of the Client being in treatment and of the Client's records. The Federal rules restrict any use of information to criminally investigate or prosecute any alcohol or drug abuse Client. Federal regulations state any person who violates any provision of the law shall be fined not more than \$500.00 in the case of the first offense and not more than \$5,000.00 in the case of each subsequent offense, except where noted in the Federal Law of Confidentiality, 42 CFR, Part 2, Section 2.22, which includes the following:

- a. The limited circumstances of release of Client information include, crimes on program premises or against program personnel, medical emergencies, mandated reports of child abuse or neglect, elderly abuse, threats to harm self or others, research, audit, and evaluations, or court orders.

16. To receive full information regarding the treatment process.

17. To refuse treatment.

18. To all other constitutional and legal rights, including the right to personal clothing and effects.

19. To be informed of the Client grievance procedure upon request.

Confidentiality of Alcohol and Drug Abuse Patient Records/Limits to Confidentiality

The confidentiality of alcohol and drug abuse Client records maintained by this program are protected by Federal law and regulations. Generally, the program may not say to a person outside the program that the Client attends the program or disclose any information identifying a client as an alcohol or drug abuser unless:

1. The Client consents in writing
2. The disclosure is allowed by a court order; or
3. The disclosure is made to medical personnel
4. The disclosure to a qualified person for research, audit, or program evaluation; or
5. The disclosure is made to protect self or others or a crime has been committed; or
6. The disclosure in the event of threats of harm to self or others (Duty To Warn).

Violation of the Federal law and regulations by a program is a crime. Suspected violations may be reported to appropriate authorities in accordance with Federal regulations.

Federal law and regulations do not protect any information about a crime committed by the Client either at the program or against any person who works for the program or about any threat to commit such a crime.

Federal laws and regulations do not protect any information about elderly abuse, suspected child abuse or neglect, threats to harm to self or others from being protected. These may be released under State law to appropriate State or local authorities beyond Federal CFR42-Regulations.

(See 42 U.S.C. 290dd-3 and 42 U.S.C. 290ee-3 for Federal laws and 42 CFR Part 2 for Federal regulations.)

Grievance Procedure:

1. Any person(s) who believes that their rights have been violated or has a complaint or grievance may file a complaint pursuant to the procedures set forth below, on their behalf or on the behalf of another person. All persons are encouraged to file a grievance. By filing a complaint the individual will not subject themselves to any form of adverse action, reprimand, retaliation, or otherwise negative treatment by Step Into Recovery Centers INC. The client shall have immediate access to the grievance form; a posting of the grievance procedure will be within the facility with the levels of appeals, and in the Patient Handbook.

2. The processing procedures for grievances and complaints are as follows:

- a. The Client is encouraged to discuss any problems with their therapist. The Client and therapist will try to find a resolution. The therapist will correspond with the Clinical Director on the grievance and/or complaint and any resolution.
- b. All grievances shall first be filed with the Clinical Director by completing a "Client Grievance" form. The Human Resources Director and/or Designee shall give the Client a receipt of the filed grievance and log the grievance. The Director will conduct an internal investigation and render an initial determination and resolution within 2 days of receipt of the complaint in writing.
- c. If the complaint is not satisfied or if the complaint is not resolved with the results achieved in Step 2, the complaint may file an appeal and/or the grievance shall be forwarded to the Executive Director and this meeting shall be held within five working days of the date it is requested.
- d. The Client shall be presented with a resolution and response to their grievance in writing.
- e. In the event that the Client does not feel a resolution has been reached they may contact the state regulatory department and the applicable client advocacy institution.

3. The Clinical Director and the Executive Director shall take steps to ensure an appropriate investigation of each complaint to determine its validity. These rules contemplate informally, but thorough, investigations affording all interested persons and their representatives, if any, an opportunity to submit evidence relevant to the complaint.

4. Any allegations of physical or sexual abuse by a therapist shall immediately be brought to the attention of the Clinical Director and the police shall be notified. The Client will be afforded the opportunity to contact the Police, state Abuse Hotline, the state department of family services, and the state disability rights department where applicable. The telephone numbers of the hotlines are posted within the facility.

I, makenzie lantelme, hereby acknowledge receipt of and understand the "Client Rights" statement.
