Step Into Recovery Centers INC Activities Release and Waiver of Liability

Notice: This form contains a release and waiver of liability and when signed is a contract between the undersigned participant and Step Into Recovery Centers INC with legal consequences. Please read this Agreement, consisting of one (1) pages in its entirety, carefully before signing your name at the bottom of the page. This form must be signed in the presence of one (1) witness who should sign as a witness.

Date of Execution of Release and Waiver of Liability:

The undersigned agrees that this "Activities Release and Waiver of Liability" form agreement is valid from the date of execution through the date of discharge.

Acknowledgments and Representations by Client:

The undersigned is currently a client of Step Into Recovery Centers INC. The undersigned has voluntarily consented to participate in voluntary sports activities or voluntary physical activities such as volleyball, aerobics, and other such types of voluntary sports or physical activities, which may not be specifically identified herein while being a client at such facility. The undersigned acknowledges and represents that their participation in such sports activities and physical activities is not a mandatory requirement of Step Into Recovery Centers INC, and that any participation by the undersigned in any and all sports-related activities and physical activities, is purely voluntary and of the undersigned's own free will. The undersigned acknowledges and represents that there has been no coercion or force on the part of Step Into Recovery Centers INC for the undersigned to execute this release and waiver of liability agreement. The undersigned has knowingly, freely, and voluntarily consented to execute this release and waiver of liability agreement. The undersigned acknowledges and understands that it is the undersigned's sole decision to participate in such voluntary activities. The undersigned acknowledges and represents that he has been informed that he has an absolute right to refuse to participate in any and all sports-related activities or physical activities.

To Step Into Recovery Centers INC, Inc.: In consideration of the opportunity afforded to me, by Step Into Recovery Centers INC, to participate in voluntary sports activities or voluntary physical activities such as volleyball, aerobics, and any other similar types of voluntary sports or physical activities which may not be specifically identified herein, the undersigned client freely agrees to make the following contractual representations and agreements with Step Into Recovery Centers INC.

The undersigned client, does hereby knowingly, freely, and voluntarily assume all liability for any damage or injury that may occur as a result of my (or my dependent/ward) participation in the activities described herein and agree to release, waive, discharge, and covenant not to sue Step Into Recovery Centers INC, its officers, agents, employees, and volunteers from any and all liability or claims that may be sustained by me or a third party directly or indirectly in connection with, or arising out of participation in the activities described herein, whether caused in whole or in part by the negligence of Step Into Recovery Centers INC, or otherwise.

The undersigned client, has read this form, fully understand its terms, and understand that, I have given up substantial rights by signing it and have signed it freely and without any inducement or assurance of any nature and intend it to be a complete and unconditional release of any and all liability to the greatest extent allowed by law, and I agree that if any portion of this contract is held to be invalid the balance notwithstanding, shall continue in full legal force and effect.

I also agree, that the rules provided to me by the Step Into Recovery Centers INC, will be followed during the course of my voluntary participation in the activities described herein. Otherwise, my privilege of participating in such activities will be revoked immediately. Each client must sign a release and waiver of liability form in order to participate in the voluntary activities described herein. I acknowledge that due to the nature of the activities described herein, Step Into Recovery Centers INC staff will not be able to prevent injuries from occurring during the course of such activities; therefore, I am choosing to participate in such activities at my own risk and agree to assume all risks associated therewith.

Indemnification of Step Into Recovery Centers INC: The undersigned client shall at all times hereafter indemnify, hold harmless and, at Step Into Recovery Centers INC Attorney's option, defend or pay for an attorney selected by Step Into Recovery Centers INC to defend Step Into Recovery Centers INC, its officers, agents, servants, and employees against any and all claims, losses, liabilities, and expenditures of any kind, including attorney fees, court costs, and expenses, caused by negligent act or omission of the client, other clients, Step Into Recovery Centers INC, its employees, agents, servants, or officers, or accruing, resulting from, or related to the undersigned client engaging in any voluntary sports activities or voluntary physical activities such as volleyball, aerobics, and any other similar types of voluntary sports or physical activities which may not be specifically identified herein, including, without limitation, any and all claims, demands, or causes of action of any nature whatsoever resulting from injuries or damages sustained by any person or property. The provisions of this section shall survive the expiration or earlier termination of this Agreement or the discharge of the client from the residential/outpatient facility operated by Step Into Recovery Centers INC.

Venue: This Agreement shall be interpreted and constructed in accordance with and governed by the laws of the State of California Venue for litigation concerning this Agreement shall be in County.

Assignment of Benefits / Release of Medical Information

I hereby authorize and request that payment of benefits by my Insurance Company(s), Aetna, be made directly to Step Into Recovery Centers INC for services furnished to me or my dependent. I understand that my Insurance Company may only cover a portion of the total bill. I further understand that I may be responsible for all charges not covered by this assignment.

In addition, I authorize Step Into Recovery Centers INC to disclose any and all written information from the above named to my above named Insurance Company and/or its designated representatives, or other financially responsible parties; at the determination of Step Into Recovery Centers INC. Such disclosure shall be for reimbursement purposes for those services received.

I hereby release Step Into Recovery Centers INC and its officers, agents, employees, and any clinician associated with my case from all liability that may arise as a result of the disclosure of information to the above named Insurance Company(s) or their designated representatives.

By signing this Assignment of Benefits and Release of Information, I acknowledge:

- I am aware and understand that this authorization will not be used unless the above-named Insurance Company(s) or their designated representatives request records of information for reimbursement purposes, or seek to take action for the referred payment for treatment services.
- I agree to participate and assist Step Into Recovery Centers INC or its designated representatives with any appeal process necessary to collect payment for the services rendered.
- I am aware and have been advised of the provisions of Federal and State Statutes, rules, and regulations that provide for my right to the confidentiality of these records.
- I understand that this assignment and authorization is subject to revocation at any time except to the extent that action has been taken in reliance thereon. In any event, this authorization will expire once reimbursement for services rendered is complete.
- Step Into Recovery Centers INC is acting in filing for insurance benefits assigned to Step Into Recovery Centers INC and it can assume no responsibility for guaranteeing payment of any charges from the Insurance Company(s).
- Billing may be done by a firm contracted by Step Into Recovery Centers INC for billing and collection purposes.
- Step Into Recovery Centers INC is appointed by me to act as my representative and on my behalf in any proceeding that may be necessary to seek payment from my insurance carrier.
- Should an overpayment take place, a refund check will be mailed to the authorized party that is due the overpayment.
- Step Into Recovery Centers INC shall be entitled to the full amount of its charges without offset.

Client Rights

All individuals who apply for services, regardless of sex, race, age, color, creed, financial status, or national origin, are assured that their lawful rights as Clients shall be guaranteed and protected. While being served, you the Client are assured and guaranteed the following rights:

1. To be treated with respect and dignity.
2. To receive timely treatment by qualified professionals.
 - a. Every effort will be made to use the least restrictive, most appropriate treatment available, based on Client needs.
 - b. Each Client shall be afforded the opportunity to participate in activities designed to enhance self-image.
 - c. An individualized treatment plan shall be developed for each Client in accordance with the provisions established for each program component.
3. To receive quality treatment that is best suited to his/her needs and shall include appropriate services, whether they be medical, vocational, social, educational, and/or rehabilitative services.
4. To express by signature an informed consent of the right to release information for communication purposes with other agencies.
5. To receive communication and correspondence from individuals.
6. To privacy for interview/counseling sessions.
7. To practice your religious practices.
8. To be provided humane care and protection from harm.
9. To contract and consult with legal counsel and private practitioners of your choice at your expense.
10. To exercise your constitutional, statutory, and civil rights.
11. To be free of physical restraint or seclusion.
12. To be informed of the nature of treatment or rehabilitation, the known effects of receiving the treatment or rehabilitation, and alternative treatment or rehabilitation programs.
13. To be provided with information on an ongoing basis regarding your treatment or rehabilitation.

14. To be provided services in accordance with standards of practice, appropriate to your needs, and designed to afford you a reasonable opportunity to improve your condition.

15. To confidentiality of the Client being in treatment and of the Client's records. The Federal rules restrict any use of information to criminally investigate or prosecute any alcohol or drug abuse Client. Federal regulations state any person who violates any provision of the law shall be fined not more than \$500.00 in the case of the first offense and not more than \$5,000.00 in the case of each subsequent offense, except where noted in the Federal Law of Confidentiality, 42 CFR, Part 2, Section 2.22, which includes the following:

- a. The limited circumstances of release of Client information include, crimes on program premises or against program personnel, medical emergencies, mandated reports of child abuse or neglect, elderly abuse, threats to harm self or others, research, audit, and evaluations, or court orders.

16. To receive full information regarding the treatment process.

17. To refuse treatment.

18. To all other constitutional and legal rights, including the right to personal clothing and effects.

19. To be informed of the Client grievance procedure upon request.

Confidentiality of Alcohol and Drug Abuse Patient Records/Limits to Confidentiality

The confidentiality of alcohol and drug abuse Client records maintained by this program are protected by Federal law and regulations. Generally, the program may not say to a person outside the program that the Client attends the program or disclose any information identifying a client as an alcohol or drug abuser unless:

1. The Client consents in writing
2. The disclosure is allowed by a court order; or
3. The disclosure is made to medical personnel
4. The disclosure to a qualified person for research, audit, or program evaluation; or
5. The disclosure is made to protect self or others or a crime has been committed; or
6. The disclosure in the event of threats of harm to self or others (Duty To Warn).

Violation of the Federal law and regulations by a program is a crime. Suspected violations may be reported to appropriate authorities in accordance with Federal regulations.

Federal law and regulations do not protect any information about a crime committed by the Client either at the program or against any person who works for the program or about any threat to commit such a crime.

Federal laws and regulations do not protect any information about elderly abuse, suspected child abuse or neglect, threats to harm to self or others from being protected. These may be released under State law to appropriate State or local authorities beyond Federal CFR42-Regulations.

(See 42 U.S.C. 290dd-3 and 42 U.S.C. 290ee-3 for Federal laws and 42 CFR Part 2 for Federal regulations.)

Grievance Procedure:

1. Any person(s) who believes that their rights have been violated or has a complaint or grievance may file a complaint pursuant to the procedures set forth below, on their behalf or on the behalf of another person. All persons are encouraged to file a grievance. By filing a complaint the individual will not subject themselves to any form of adverse action, reprimand, retaliation, or otherwise negative treatment by Step Into Recovery Centers INC. The client shall have immediate access to the grievance form; a posting of the grievance procedure will be within the facility with the levels of appeals, and in the Patient Handbook.

2. The processing procedures for grievances and complaints are as follows:

- a. The Client is encouraged to discuss any problems with their therapist. The Client and therapist will try to find a resolution. The therapist will correspond with the Clinical Director on the grievance and/or complaint and any resolution.
- b. All grievances shall first be filed with the Clinical Director by completing a "Client Grievance" form. The Human Resources Director and/or Designee shall give the Client a receipt of the filed grievance and log the grievance. The Director will conduct an internal investigation and render an initial determination and resolution within 2 days of receipt of the complaint in writing.
- c. If the complaint is not satisfied or if the complaint is not resolved with the results achieved in Step 2, the complaint may file an appeal and/or the grievance shall be forwarded to the Executive Director and this meeting shall be held within five working days of the date it is requested.
- d. The Client shall be presented with a resolution and response to their grievance in writing.
- e. In the event that the Client does not feel a resolution has been reached they may contact the state regulatory department and the applicable client advocacy institution.

3. The Clinical Director and the Executive Director shall take steps to ensure an appropriate investigation of each complaint to determine its validity. These rules contemplate informally, but thorough, investigations affording all interested persons and their representatives, if any, an opportunity to submit evidence relevant to the complaint.

4. Any allegations of physical or sexual abuse by a therapist shall immediately be brought to the attention of the Clinical Director and the police shall be notified. The Client will be afforded the opportunity to contact the Police, state Abuse Hotline, the state department of family services, and the state disability rights department where applicable. The telephone numbers of the hotlines are posted within the facility.

I, Pierre Santos, hereby acknowledge receipt of and understand the "Client Rights" statement.

Step Into Recovery Centers INC Confidentiality Policy

The following information is provided to assist you in your counseling experience at Step Into Recovery Centers INC.

Counseling and treatment is a personal and confidential relationship between a clinician and individual, group, or family.

We work from a team approach at Step Into Recovery Centers INC. Therefore, there may be times when it is necessary for us to consult with other professional staff either individually or at our clinical team meetings in an effort to provide you with the highest consideration and quality. Our clinicians are all Mastered prepared and professionally licensed, graduate student interns, or clinicians working toward certification in substance abuse counseling.

No information will be released from Step Into Recovery Centers INC regarding counseling or consultation sessions without your expressed written consent. If you wish for information to be released to anyone, it will be necessary for you to complete a Release of Information form, stipulating the professional to whom the information is being sent. The law stipulates that in the event of imminent danger to yourself or others, we **must** breach confidentiality. We must also act in accordance with any applicable state laws regarding mandatory disclosure of child, elder, or other abuse.

I have read the above policies and procedures and understand them.

Consent For Pregnancy Test

It is the policy of Step Into Recovery Centers INC to have female clients tested for pregnancy upon admission and suspicion.

PROCEDURE:

1. Upon admission, clients will self-administer a urine dipstick pregnancy test with the supervision of a same-sex staff member.
2. Results will be documented within the lab's section in the clinical record.
3. The Medical Doctor on staff will review signs to identify conflicts of medications prior to prescribing.
4. Positive Pregnancy Test: If a client is found to be pregnant, an immediate medical conference will be held with the clinical staff and client within 24 hours.

My signature below indicates I have acknowledged Step Into Recovery Centers INC's pregnancy test protocols and consent to this testing.

I understand that my refusal to self-administer this test could result in my being asked to leave Step Into Recovery Centers INC and to forfeit all my rights and privileges as a client.

Step Into Recovery Centers INC Consent for Treatment

I authorize Step Into Recovery Centers INC to perform all clinical services deemed necessary in the evaluation of program/client appropriateness.

I have been advised and understand that Step Into Recovery Centers INC adheres to all Federal Laws of confidentiality and any suspected violations of the law must and will be reported.

I give my consent for the duration of my treatment and 90 days after discharge for Step Into Recovery Centers INC to release information regarding my progress and location in treatment to Referring Agencies, Probation, and Officers of the Court for the purpose of assuring my compliance with an order for treatment (if requested).

I agree to submit a urine/take an alcohol test, if requested, for drug testing. I understand that failure to do so could result in negative termination. Urine/alcohol results may be utilized as treatment interventions or may be completed as determined by external requirements.

I understand that I am responsible for all fees for the duration of my program.

I understand that if I fail to follow any communicable-disease-related referrals, Step Into Recovery Centers INC will need to report such to the County Health Department.

In case of a severe medical emergency, I have listed an emergency medical contact on a release form and do authorize Step Into Recovery Centers INC to contact that party should such an emergency occur.

Step Into Recovery Centers INC Group Confidentiality

To reinforce the feelings of closeness and willingness to share with others your feelings, thoughts, and consequences of your dependency, confidentiality is a must in group therapy. Use this as your golden rule: **What is said in Group, stays in Group**
To break this rule violates the trust of the total group and the effectiveness of group therapy is lost.

The following guidelines will help you maintain this rule:

1. Group issues are not discussed with others outside your group.
2. Do not discuss group issues with your roommate unless he/she is in your group.
3. Do not discuss at any outside meetings or places where others may overhear you.

Your group therapists have the same responsibilities for group confidentiality as you, with the exception that your therapists share group issues and your participation in the group process with other staff members. This is a vital part of the staff team's approach to assist you in your recovery.

The staff values your confidentiality so highly that anyone who breaks confidentiality - whether to another patient of Step Into Recovery Centers INC or to family, significant others, etc., may be subject to discharge from this program.

Step Into Recovery Centers INC Uses and Disclosure of Health Information

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED
AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.**

PLEASE REVIEW IT CAREFULLY

This notice is effective as of April 15, 2003

USES AND DISCLOSURE OF HEALTH INFORMATION

Step Into Recovery Centers INC is committed to protecting the privacy of the personal and health information we collect or create as part of providing health care services to our clients, known as "Protected Health Information" or "PHI". PHI typically includes your name, address, date of birth, billing arrangements, care, and other information that relates to your health, health care provided to you, or payment for the health care provided to you. PHI DOES NOT include information that is de-identified or cannot be linked to you.

This notice of Health Information Privacy Practices (the "Notice") describes Step Into Recovery Centers INC's duties with respect to the privacy of PHI, Step Into Recovery Centers INC's use of and disclosure of PHI, client rights, and contact information for comments, questions, and complaints.

Step Into Recovery Centers INC'S PRIVACY PROCEDURES AND LEGAL OBLIGATIONS

Step Into Recovery Centers INC obtains most of its PHI directly from you, through care applications, assessments, and direct questions. We may collect additional personal information depending upon the nature of your needs and consent to make additional referrals and inquiries. We may also obtain PHI from community health care agencies, other governmental agencies, or health care providers as we set up your service arrangements.

Step Into Recovery Centers INC is required by law to provide you with this notice and to abide by the terms of the Notice currently in effect. Step Into Recovery Centers INC reserves the right to amend this Notice at any time to reflect changes in our

privacy practices. Any such changes will be applicable to and effective for all PHI that we maintain including PHI we created or received prior to the effective date of the revised notice. Any revised notice will be mailed to you or provided upon request.

Step Into Recovery Centers INC is required by law to maintain the privacy of PHI. Step Into Recovery Centers INC will comply with federal law and will comply with any state law that further limits or restricts the uses and disclosures discussed below. In order to comply with these state and federal laws, Step Into Recovery Centers INC has adopted policies and procedures that require its employees to obtain, maintain, use and disclose PHI in a manner that protects client privacy.

USES AND DISCLOSURES WITH YOUR AUTHORIZATION

Except as outlined below, Step Into Recovery Centers INC will not use or disclose your PHI without your written authorization. The authorization form is available from Step Into Recovery Centers INC (at the address and phone number below). You have the right to revoke your authorization at any time, except to the extent that Step Into Recovery Centers INC has taken action in reliance on the authorization.

The law permits Step Into Recovery Centers INC to use and disclose your PHI for the following reasons without your authorization:

For Your Treatment: We may use or disclose your PHI to physicians, psychologists, nurses and other authorized healthcare professionals who need your PHI in order to conduct an examination, prescribe medication, or otherwise provide health care services to you.

To Obtain Payment: We may use or disclose your PHI to insurance companies, government agencies, or health plans to assist us in getting paid for our services. For example, we may release information such as dates of treatment to an insurance company in order to obtain payment.

For Our Health Care Operations: We may use or disclose your PHI in the course of activities necessary to support our health care operations such as performing quality checks on your employee services. We may also disclose PHI to other persons not in Step Into Recovery Centers INC's workforce or to companies who help us perform our health services (referred to as "Business Associates") we require these business associates to appropriately protect the privacy of your information.

As Permitted or Required By The Law: In some cases, we are required by law to disclose PHI. Such as disclosers may be required by statute, regulation court order, government agency, we reasonably believe an individual to be a victim of abuse, neglect, or domestic violence: for judicial and administrative proceedings and enforcement purposes.

For Public Health Activities: We may disclose your PHI for public health purposes such as reporting communicable disease results to public health departments as required by law or when required for law enforcement purposes.

For Health Oversight Activities: We may disclose your PHI in connection with governmental oversight, such as for licensure, auditing, and the administration of government benefits.

To Avert Serious Threat to Health and Safety: We may disclose PHI if we believe in good faith that doing so will prevent or lessen a serious or imminent threat to the health and safety of a person or the public.

Disclosures of Health-Related Benefits or Services: Sometimes we may want to contact you regarding service reminders, health-related products or services that may be of interest to you, such as health care providers or settings of care or to tell you about other health-related products or services offered at Step Into Recovery Centers INC. You have the right not to accept such information.

Incidental Uses and Disclosures: Incidental uses and disclosures of PHI are those that cannot be reasonably prevented are limited in nature and that occur as a by-product of a permitted use or disclosure. Such incidental uses and disclosures are permitted as long as Step Into Recovery Centers INC use reasonable safeguards and use or disclose only the minimum amount of PHI necessary.

To Personal Representatives: We may disclose PHI to a person designated by you to act on your behalf and make decisions about your care in accordance with state law. We will act according to your written instructions in your chart and our ability to verify the identity of anyone claiming to be your personal representative.

To Family and Friends: We may disclose PHI to persons that you indicate are involved in your care or the payment of care. These disclosures may occur when you are not present, as long as you agree and do not express an objection. These disclosures may also occur if you are unavailable, incapacitated, or facing an emergency medical situation and we determine that a limited disclosure may be in your best interest. We may also disclose limited PHI to a public or private entity that is authorized to assist in disaster relief efforts in order for that entity to locate a family member or other person that may be involved in caring for you. You have the right to limit or stop these disclosures.

YOUR RIGHTS CONCERNING PRIVACY

Access to Certain Records: You have the right to inspect and copy your PHI in a designated record set except where State law may prohibit client access. A designated record set contains medical and billing and case management information. If we do not have your PHI recordset but know who does, we will inform you how to get it. If our PHI is a copy of the information maintained by another health care provider, we may direct you to request the PHI from them. If Step Into Recovery Centers INC produces copies for you, we may charge you up to \$1.00 per page up to a maximum fee of \$50.00. Should we deny your request for access to the information contained in your designated record set, you have the right to ask for the denial to be reviewed by another healthcare professional designated by Step Into Recovery Centers INC.

Amendments to Certain Records: You have the right to request certain amendments to your PHI if, for example, you believe

a mistake has been made or a vital piece of information is missing. Step Into Recovery Centers INC is not required to make the requested amendments and will inform you in writing of our response to your request.

Accounting of Disclosures: You have the right to receive an accounting of disclosures of your PHI that were made by Step Into Recovery Centers INC for a period of six (6) years prior to the date of your written request. This accounting does not include for purposes of treatment, payment, health care operations, or certain other excluded purposes, but includes other types of disclosures, including disclosures for public health purposes or in response to a subpoena or court order.

Restrictions: You have the right to request that we agree to restrictions on certain uses and disclosures of your PHI, but we are not required to agree to your request. You cannot place limits on uses and disclosures that we are legally required or allowed to make.

Revoke Authorizations: You have the right to revoke any authorizations you have provided, except to the extent that Step Into Recovery Centers INC has already relied upon the prior authorization.

Delivery by Alternate Means or Alternate Address: You have the right to request that we send your PHI by alternate means or to an alternate address.

Complaints & How to contact us: If you believe your privacy rights have been violated, you have the right to file a complaint by contacting Step Into Recovery Centers INC at the address and/or phone number indicated below. You also have the right to file a complaint with the Secretary of the United States Department of Health and Human Services in Washington, D.C. Step Into Recovery Centers INC will not retaliate against you for filing a complaint.

If you believe your privacy rights have been violated, you may make a complaint by contacting [REDACTED], HIPAA Privacy Officer at () - or the Secretary for the Department of Health and Human Services. No individual will be retaliated against for filing a complaint.

Step Into Recovery Centers INC Notice of Privacy Practices

Your Information. Your Rights. Our Responsibilities.

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

Your Rights

When it comes to your health information, you have certain rights. This section explains your rights and some of our responsibilities to help you.

Get an electronic or paper copy of your medical record

- You can ask to see or get an electronic or paper copy of your medical record and other health information we have about you. Ask us how to do this.
- We will provide a copy or a summary of your health information, usually within 30 days of your request. We may charge a reasonable, cost-based fee.

Ask us to correct your medical record

- You can ask us to correct health information about you that you think is incorrect or incomplete. Ask us how to do this.
- We may say “no” to your request, but we’ll tell you why in writing within 60 days.

Request confidential communications

- You can ask us to contact you in a specific way (for example, home or office phone) or to send mail to a different address.
- We will say “yes” to all reasonable requests.

Ask us to limit what we use or share

- You can ask us **not** to use or share certain health information for treatment, payment, or our operations.
 - We are not required to agree to your request, and we may say “no” if it would affect your care.
- If you pay for a service or health care item out-of-pocket in full, you can ask us not to share that information for the

purpose of payment or our operations with your health insurer.

- We will say “yes” unless a law requires us to share that information.

Get a list of those with whom we've shared information

- You can ask for a list (accounting) of the times we've shared your health information for six years prior to the date you ask, who we shared it with, and why.
- We will include all the disclosures except for those about treatment, payment, and health care operations, and certain other disclosures (such as any you asked us to make). We'll provide one accounting a year for free but will charge a reasonable, cost-based fee if you ask for another one within 12 months.

Get a copy of this privacy notice

- You can ask for a paper copy of this notice at any time, even if you have agreed to receive the notice electronically. We will provide you with a paper copy promptly.

Choose someone to act for you

- If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information.
- We will make sure the person has this authority and can act for you before we take any action.

File a complaint if you feel your rights are violated

- You can complain if you feel we have violated your rights by contacting us using the information on page 1.
- You can file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting www.hhs.gov/ocr/privacy/hipaa/complaints/.
- We will not retaliate against you for filing a complaint.

Your Choices

For certain health information, you can tell us your choices about what we share. If you have a clear preference for how we share your information in the situations described below, talk to us. Tell us what you want us to do, and we will follow your instructions.

In these cases, you have both the right and choice to tell us to:

- Share information with your family, close friends, or others involved in your care
- Share information in a disaster relief situation
- Include your information in a hospital directory
- Contact you for fundraising efforts

If you are not able to tell us your preference, for example, if you are unconscious, we may go ahead and share your information if we believe it is in your best interest. We may also share your information when needed to lessen a serious and imminent threat to health or safety.

In these cases we *never* share your information unless you give us written permission:

- Marketing purposes
- Sale of your information

- Most sharing of psychotherapy notes

In the case of fundraising:

- We may contact you for fundraising efforts, but you can tell us not to contact you again.

Our Uses and Disclosures

How do we typically use or share your health information? We typically use or share your health information in the following ways.

Treat you

- We can use your health information and share it with other professionals who are treating you.

Example: A doctor treating you for an injury asks another doctor about your overall health condition.

Run our organization

- We can use and share your health information to run our practice, improve your care, and contact you when necessary.

Example: We use health information about you to manage your treatment and services.

Bill for your services

- We can use and share your health information to bill and get payment from health plans or other entities.

Example: We give information about you to your health insurance plan so it will pay for your services.

How else can we use or share your health information? We are allowed or required to share your information in other ways – usually in ways that contribute to the public good, such as public health and research. We have to meet many conditions in the law before we can share your information for these purposes.

For more information see www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html.

Help with public health and safety issues

- We can share health information about you for certain situations such as:
 - Preventing disease
 - Helping with product recalls
 - Reporting adverse reactions to medications
 - Reporting suspected abuse, neglect, or domestic violence
 - Preventing or reducing a serious threat to anyone's health or safety

Do research

- We can use or share your information for health research.

Comply with the law

- We will share information about you if state or federal laws require it, including with the Department of Health and Human Services if it wants to see that we're complying with federal privacy law.

Respond to organ and tissue donation requests

- We can share health information about you with organ procurement organizations.

Work with a medical examiner or funeral director

- We can share health information with a coroner, medical examiner, or funeral director when an individual dies.

Address workers' compensation, law enforcement, and other government requests

- We can use or share health information about you:
 - For workers' compensation claims
 - For law enforcement purposes or with a law enforcement official
 - With health oversight agencies for activities authorized by law
 - For special government functions such as military, national security, and presidential protective services

Respond to lawsuits and legal actions

- We can share health information about you in response to a court or administrative order, or in response to a subpoena.

Our Responsibilities

Universal Precautions for HIV

Universal Precautions refer to the usual and ordinary steps we need to take in order to reduce the risk of infection with HIV, the virus that causes AIDS. These measures are intended to prevent transmission of HIV.

The prevention of the transmission of HIV is based on the avoidance of skin and mucous membrane contact with blood and body fluids.

Protecting yourself from HIV

- Avoid risky behavior
- Protect yourself from sharp injuries
- Wear gloves when in contact with body fluids, if possible
- Wear mask and eye protection when splash injuries are possible
- Call on trained individuals to clean up blood spills

Step Into Recovery Centers INC Universal Precautions for Infection Control

Universal Precautions refer to the usual and ordinary steps you need to take in order to reduce the risk of infectious diseases such as HIV or Hepatitis C.

The prevention of transmission of infectious diseases is based on the avoidance of skin and mucous membrane contact with blood and other body fluids.

AVOID UNNECESSARY RISKS

- If a fellow patient or client needs assistance, please call a staff member immediately.
- When avoidable, don't expose yourself to another person's blood or body fluids.
- Never share needles, razors, or any other *personal* sharp objects.
- Always call on trained individuals to clean up blood or other body fluid spills.

PROTECT YOURSELF

- Use barrier protection to prevent skin and mucous membrane contact with blood and other body fluids.
- Wear face protection if blood or body fluid droplets may be generated during a procedure.
- Wear protective clothing if blood or body fluids may be splashed during a procedure.
- Wash hands and skin immediately and thoroughly if contaminated with blood or body fluids.
- Wash hands immediately after gloves are removed.
- Use care when handling sharp instruments and needles. Place used sharps in labeled, puncture-resistant containers.
- If you have sustained an exposure or puncture wound, immediately flush the exposed area and notify a staff member.

Rationale for Treatment

Admission:

Pierre Santos requires admission into a Partial Hospitalization Program (PHP) due to the complex nature of his mental health and substance use disorders, which have significantly impaired his daily functioning, mood regulation, and cognitive abilities. His history of severe opioid, cannabis, and sedative use, compounded by his diagnosed generalized anxiety disorder (F41.1) and bipolar I disorder, current episode depressed (F31.4), have made it impossible for him to manage his symptoms effectively in an outpatient setting. Previous outpatient treatments have not resulted in sustained improvement, as Pierre continues to relapse into substance use, experiencing significant withdrawal symptoms, including severe anxiety, tremors, restlessness, and intense cravings.

Pierre's substance use has exacerbated his mood instability, leading to periods of severe depression where he struggles to complete even basic daily tasks. His anxiety and mood swings, along with his cognitive impairments such as difficulty concentrating and poor memory, have further hindered his ability to function in social and work environments. These symptoms have led to strained family relationships, social isolation, and poor academic performance, as he has been unable to complete his GED.

Given the severity of his symptoms and his ongoing struggle with withdrawal, Pierre requires a structured and supervised environment that PHP can provide. This level of care will offer him the necessary support to manage both his substance use and underlying mental health disorders. Intensive therapeutic interventions, such as individual therapy, group therapy, and family therapy, are crucial in addressing the emotional trauma and environmental triggers that contribute to his substance use. PHP will also allow for close monitoring of his mental health and withdrawal symptoms, ensuring that Pierre can safely navigate the detoxification process while receiving appropriate medical and psychological support.

Pierre Santos MR SIR2024-154 DOB: 06/21/2006 Male MEDICA HARMONY by MEDICA Bronze Premier F11.20 Opioid use disorder, Severe,F12.20 Cannabis use disorder, Severe,F13.20 Sedative, hypnotic, or anxiolytic use disorder, Severe,F41.1 Generalized anxiety disorder,F31.4 Bipolar I disorder, Current or most recent episode depressed, Severe

In summary, Pierre's complex presentation of severe substance use disorders, mood instability, anxiety, and failed outpatient treatments justify the need for PHP-level care. Without this intensive support, his risk for continued relapse, further mental health deterioration, and worsening withdrawal symptoms remains high. PHP will provide him with the comprehensive treatment plan needed to stabilize his condition and move towards long-term recovery.

Current Medications:

Medications below include all current active orders logged via Doctor's Orders. These may include medications self-reported by the patient that were logged, medication orders entered at the facility, and medications brought to the facility by the patient ordered to be continued upon admission. If the patient is not being treated in a residential/inpatient setting, this list may not be inclusive of all medications taken by the patient outside of the facility.

Current as of 10/11/2024 05:38 PM:

II. Chief Complaint:

Pierre reports severe anxiety, mood swings, and difficulty concentrating on daily tasks. He is experiencing withdrawal symptoms from opioid and cannabis use, which have disrupted his relationships and daily activities. Pierre also reports depressive episodes, including difficulty sleeping.

III. History of Present Illness:

(Include a history of present illness, including onset, precipitating factors and reason for the current admission, signs and symptoms, course, and the results of any treatment received.)

Pierre's substance use began in his early teens and has worsened over the past two years, escalating to regular use of opioids and sedatives, in addition to cannabis. He has experienced mood instability, severe anxiety, and a recent depressive episode that lasted several weeks, during which he found it difficult to function. Pierre has attempted outpatient treatments for anxiety without success, leading to his current admission.

IV. Past Psychiatric & Substance Treatment History:

Pierre has undergone several outpatient treatment programs for anxiety and substance use, but these efforts were unsuccessful, with his substance use worsening. Diagnosed with generalized anxiety disorder and bipolar I disorder (current episode depressed), Pierre was prescribed medications, though adherence has been inconsistent.

V. Pertinent Past Psychiatric History: (check all that apply)

- H/O recurrent problems with psycho-active substances
- H/O legal problems

VI. Background & Social History:
(Include family, educational, vocational,occupational and social history)

Pierre was raised in a single-parent household after his parents divorced when he was 10. He has a strained relationship with his younger sibling. His substance use began in high school, leading to a decline in academic performance. He has not completed his GED and currently lives with his mother, though he reports a lack of support at home. His social network primarily consists of friends who also engage in substance use.

VII. Medical/Surgical History:

No significant medical or surgical history reported. Pierre occasionally experiences headaches and muscle pain, which he attributes to his substance use.

VIII. Seizure History:

None reported

IX. Head/Trauma History:

None reported

X. Trauma/Abuse History:

Pierre grew up in a turbulent household where his father struggled with alcoholism. He witnessed frequent verbal and emotional abuse between his parents, leading to emotional trauma. There are no reports of physical or sexual abuse, though Pierre identifies emotional trauma from his upbringing.

XI. Psychosocial/Development/Family History Overview:

Pierre was raised by his mother in a single-parent household. His father struggled with alcoholism, and his parents divorced when Pierre was 10. He has one younger sibling, with whom he has a strained relationship. Pierre’s social environment consists mainly of friends who engage in substance use, and he reports limited support from his family.

XII. Previous History Suicidal/Homicidal Ideation/Plan:

Pierre denies any previous history of suicidal or homicidal ideation. He reports feelings of hopelessness during depressive episodes but has never made any suicide plans or attempts.

XIII. Current Suicidal/Homicidal Ideation/Plan:

Pierre denies current suicidal or homicidal ideation or any active plans.

- Medication Management
- Group Psychotherapy
- Family Psychotherapy
- Psychoeducational Groups
- Case Management

XXII. Psychopharmacologic Interventions: None

Risks, benefits, side effects, and dosage schedule explained to patient: Yes

Client verbalized understanding of teaching: Yes

Follow-up:

Pierre will need regular follow-up appointments to assess his response to potential future medication management, particularly for his generalized anxiety disorder and bipolar I disorder. Medication adjustments for these conditions, if prescribed, will be reviewed and monitored to ensure compliance and effectiveness. Additionally, follow-up will include monitoring for any withdrawal symptoms or changes in mood stability.

On this examination, the patient demonstrated signs suggestive of Tardive Dyskinesia. The potential risks and long term consequences of this disorder, and treatment alternatives, were discussed and understood by the patient/guardian. No

XXIII. Physician Certification of Need for Admission:

I. SOCIAL AREA

A. Family of Origin

1. Where were you raised and by whom?

Pierre was raised by his mother in a single-parent household after his parents divorced when he was 10 years old.

2. Do you have any siblings?

	Name	Age	Grew Up Together?
	Jasmine	16 yrs old	Y

3. How were the relationships between family members in the immediate family/in the household?

Pierre's family relationships were strained due to his father's alcoholism and the emotional trauma caused by frequent arguments between his parents.

4. Who do you feel closest to in the family and why?

Pierre reports not feeling particularly close to any family member due to the emotional distance caused by his substance use and the instability in his household growing up.

5. Is there any history of the following:

- Mother:

Mental Health Problems
- Father:

Substance Abuse , Mental Health Problems
- Step-Parent:

None
- Siblings:

None
- Other:

None

If YES to any of the above, elaborate:

Pierre grew up in a turbulent household marked by his parents' struggles with mental health and substance abuse. His mother

faced ongoing mental health challenges, which affected her ability to provide consistent emotional support, contributing to the instability in the family. Pierre’s father struggled with alcohol abuse and undiagnosed mental health issues, leading to frequent emotional and verbal conflicts between his parents. These issues created a volatile environment during Pierre’s formative years, leaving a lasting emotional impact. Although Pierre has one younger sibling, their relationship is strained, largely due to Pierre’s substance use and emotional difficulties. The lack of a supportive family structure has significantly influenced Pierre’s mental health and contributed to his ongoing challenges with substance abuse.

Treatment History

Number of
Times:

0

Previous Treatment: ☒ None

Describe your treatment and relapse history, including AA experiences and attempts at abstinence/recovery:

Pierre has undergone multiple sobrieties attempts by trying different programs at home, but none have led to sustained recovery. He has attempted to reduce his substance use through individual therapy and prescribed medications but struggled with inconsistent adherence. Pierre has not actively participated in AA or other support groups, which, combined with his unstable support system and emotional triggers, has resulted in repeated relapses shortly after each treatment attempt.

What precipitating events lead to relapse (i.e. triggers)?

Pierre's primary relapse triggers include stress, anxiety, and emotional distress, particularly when dealing with family conflicts or feeling isolated. Social situations involving substance use and feelings of hopelessness during depressive episodes also contribute to his relapses.

X. TREATMENT ACCEPTANCE / RESISTANCE DIMENSION

1. Describe your external motivation for Treatment?

Pierre is motivated by the need to regain control over his life and improve his strained relationships with his family.

2. Describe your internal motivation for Treatment?

Pierre acknowledges the negative impact of his substance use on his mental health and is willing to make changes.

3. Relapse/Continued Use Potential

Client's Strengths:	Willingness to seek treatment , Willingness to comply with treatment , Ability to benefit from treatment
Client's Weaknesses:	Lacks coping skills , Poor impulse control , Low self esteem , Poor motivation
Barriers to Treatment:	Psychiatric diagnosis , Financial

XI. RECOVERY ENVIRONMENT

1. Do you have an existing positive support system?

Yes, though limited. His mother provides basic support, but the relationship is strained.

2. Is your current living environment conducive to progress in therapy?

Yes, though there is emotional strain in his household.

3. Are you currently engaged in any substance-free leisure activities or hobbies? Yes

4. What strengths do you have that will assist you in regards to recovery?

Pierre's strengths that will assist in his recovery include his willingness to seek help, his acknowledgment of the need for treatment, and his ability to engage in therapy. Additionally, his capacity for self-awareness, recognizing the negative impact of his substance use on his life, will support his motivation to make positive changes. Despite strained family relationships, he has basic support from his mother, which may provide some stability during his recovery process.

5. Additional information / comments concerning recovery environment issues: None

XV. INTERVIEW WITH SIGNIFICANT FAMILY MEMBER

(When available in person or by phone)

1. Does family member / significant other view Client’s behavior and/or usage as a problem? No

2. Has any family member / significant other attempted to address/intervene in Client’s behavior and/or usage? ☒ Yes ☐ No

Why or Why Not?

Yes. Pierre’s mother has expressed concern about his substance use and mental health issues but has struggled to provide effective intervention due to her own emotional limitations and their strained relationship.

3. Has family member / significant other noticed any changes in Client’s behavior? No

4. Have there been any traumatic events in the family or specific to the Client? No

5. Is family member / significant other willing to participate in Client’s treatment? Yes

CLINICAL IMPRESSIONS:

Include the impact of spirituality on the ability of the individual to receive care/services/determination of any barriers to treatment and/or affiliation with certain types of self-help groups, and if any further assessments are needed.

Pierre’s lack of spirituality or religious affiliation does not appear to impact his ability to receive care or present any significant barriers to treatment. However, the strained family relationships and the limited involvement of his family in addressing his substance use could be a potential barrier to recovery. Further assessment may be needed to explore ways to strengthen his family support or involve external support systems.

RATIONALE FOR TREATMENT AT THIS LEVEL OF CARE:

Pierre requires Partial Hospitalization Program (PHP) care due to the severe and multifaceted impact of his substance use and mental health disorders on his overall functioning. His combination of opioid, cannabis, and sedative use disorders has led to significant impairment in various aspects of his life, including emotional stability, cognitive functioning, physical health, and social relationships. He experiences frequent withdrawal symptoms such as severe anxiety, mood swings, and difficulty concentrating, which require close monitoring and therapeutic intervention that cannot be effectively provided in a less intensive setting.

Pierre has made several unsuccessful attempts at sobriety on his own, but these efforts have been hindered by his limited support system and the overwhelming severity of his addiction and mental health challenges. His generalized anxiety disorder and bipolar I disorder (current episode depressed) complicate his recovery process, making it difficult for him to maintain emotional stability without structured care. His emotional volatility and limited insight into the severity of his addiction further emphasize the need for a comprehensive, structured environment like PHP, where therapeutic and medical support can be provided consistently.

In a PHP setting, Pierre will receive essential therapeutic interventions, including individual therapy, group therapy, and medication management, all tailored to address both his substance use and underlying mental health issues. The structured, day-long programming offered by PHP will provide the necessary support and accountability for Pierre to manage his

withdrawal symptoms and build effective coping mechanisms.

Additionally, Pierre’s strained family relationships, particularly with his mother, limit his ability to recover in his current home environment. PHP will offer a supportive and supervised setting that allows him to distance himself from the triggers and stressors contributing to his substance use. Family therapy provided in PHP can also help rebuild family dynamics and improve support at home.

Given Pierre’s extreme level of impairment in key areas such as employment, social functioning, and substance use, PHP offers the intensity and comprehensive care required to stabilize his condition, manage his co-occurring mental health disorders, and prevent further deterioration or relapse. Without this level of care, he is at high risk for continued substance use, worsening mental health, and an inability to regain control of his life.

REASON FOR TREATMENT AT THIS TIME / GOAL FOR TREATMENT:

Pierre is entering treatment due to the severe impact of his opioid, cannabis, and sedative use disorders on his daily life, combined with worsening generalized anxiety disorder and bipolar I disorder. His substance use and mental health issues are preventing him from functioning independently, and his attempts at sobriety on his own have been unsuccessful. The immediate goal of treatment is to stabilize Pierre’s physical and mental health through medical detoxification, individual therapy, and medication management. Group therapy will provide peer support, and family therapy will work to improve strained relationships at home. In the long term, the goal is to help Pierre achieve and maintain sobriety, develop healthy coping mechanisms, and regain control of his life, building a foundation for lasting recovery.

INTEGRATED DIAGNOSTIC SUMMARY/CLINICAL IMPRESSION:

Pierre presents with a complex and severe set of substance use disorders and co-occurring mental health conditions that have significantly impaired his ability to function in various aspects of his life. He has been diagnosed with opioid use disorder, severe (F11.20), cannabis use disorder, severe (F12.20), and sedative, hypnotic, or anxiolytic use disorder, severe (F13.20). These substance dependencies have escalated over the past several years, leading to daily use and withdrawal symptoms that include severe anxiety, irritability, mood swings, and cognitive impairment. Despite his attempts at sobriety on his own, Pierre has been unable to break the cycle of addiction, and his substance use continues to disrupt his daily functioning, relationships, and emotional well-being.

In addition to his substance use disorders, Pierre has been diagnosed with generalized anxiety disorder (F41.1) and bipolar I disorder, current episode depressed, severe (F31.4). These mental health conditions further complicate his treatment needs. Pierre’s bipolar disorder is characterized by mood swings, with frequent depressive episodes that leave him feeling hopeless, unable to engage in daily activities, and at times emotionally disconnected from his surroundings. His anxiety disorder manifests as pervasive worry, social discomfort, and increased agitation, which exacerbates his substance use and withdrawal symptoms.

Pierre’s family environment is also contributing to his overall condition. Raised in a household marked by emotional turbulence and his father’s alcoholism, Pierre has experienced emotional trauma, which has further influenced his development of maladaptive coping mechanisms like substance use. His current relationship with his family, especially his mother, is strained, and he lacks a strong support system, further reinforcing the need for an intensive, structured treatment environment.

Clinically, Pierre’s substance use, combined with his untreated mental health conditions, has created a cycle of dependency, mood instability, and impaired judgment. His lack of coping mechanisms and poor impulse control have led to repeated use of substances to self-medicate, particularly in response to stress, anxiety, and emotional distress. His insight into the severity of

Pierre Santos MR SIR2024-154 DOB: 06/21/2006 Male MEDICA HARMONY by MEDICA Bronze Premier F11.20 Opioid use disorder, Severe,F12.20 Cannabis use disorder, Severe,F13.20 Sedative, hypnotic, or anxiolytic use disorder, Severe,F41.1 Generalized anxiety disorder,F31.4 Bipolar I disorder, Current or most recent episode depressed, Severe

his addiction is limited, though he does express a willingness to engage in treatment and acknowledges the negative effects of his substance use.

Based on the severity of Pierre’s condition, PHP (Partial Hospitalization Program) is recommended as the appropriate level of care. He requires intensive support and therapeutic interventions to manage his withdrawal symptoms, stabilize his mood, and address the underlying trauma and emotional factors driving his addiction. The combination of individual therapy, group therapy, medication management, and family therapy will provide Pierre with the comprehensive care he needs to recover, rebuild his relationships, and develop the tools necessary for long-term sobriety and mental health stability.

LOCUS Assessment with Scoring 10/11/2024 07:40 PM

Evaluation 10/11/2024 07:40 PM
Date/Time:

I. Risk of Harm 3 Moderate Risk of Harm (3)

Evidence

Pierre is at significant risk of harm due to his daily use of opioids, cannabis, and sedatives, which has led to withdrawal symptoms such as severe anxiety, mood swings, and impaired cognitive functioning. He has also reported emotional instability due to his co-occurring mental health conditions, which heighten his vulnerability to continued substance use and relapse without proper intervention.

II. Functional Status 3 Moderate Impairment (3)

Evidence

Pierre's substance use and mental health disorders have severely impacted his ability to function in daily life. He is currently unemployed, has not completed his education, and has difficulty managing daily tasks. His mood swings, anxiety, and poor concentration further diminish his capacity to engage in meaningful activities or maintain social relationships.

III. Co-occurring Disorders 3 Significant Co-Morbidity (3)

Evidence

Pierre has been diagnosed with multiple co-occurring mental health conditions, including generalized anxiety disorder (F41.1) and bipolar I disorder, current episode depressed (F31.4). These disorders, combined with his substance use, have exacerbated his emotional instability, mood dysregulation, and difficulty coping with stress.

IV. Recovery Environment Pierre's current living situation is not supportive of his recovery. He lives with his mother, but their relationship is strained, and the home environment is marked by tension. His household lacks the structure and emotional support needed to foster sobriety, and his overall social environment revolves around peers who also engage in substance use, further hindering his recovery efforts.

A) Level of Stress 3 Moderately Stressful Environment (3)

Evidence

Pierre experiences a high level of stress due to strained family relationships, lack of emotional support, and frequent triggers related to his past trauma. His environment is not conducive to recovery, as he continues to live in a household where family

dynamics remain tense, and he lacks a supportive network to assist in his recovery process.

B) Level of Support 2 Supportive Environment (2)

Evidence

Pierre has limited support from his family, particularly his mother, with whom he has a strained relationship. His social network primarily consists of friends who also engage in substance use, which further diminishes the level of positive support available to him. He currently lacks access to a stable and supportive recovery environment outside of treatment.

V. Treatment and Recovery History 3 Moderate or Equivocal Response to Treatment/Recovery Mgmt (3)

Evidence

Pierre has made several attempts at sobriety on his own but has not engaged in formal outpatient or inpatient treatment programs. His self-directed efforts at abstinence have been unsuccessful, leading to repeated relapses due to a lack of structured support and coping mechanisms. He has never participated in a structured recovery program like AA or other support groups.

VI. Engagement 2 Positive Engagement (2)

Evidence

Pierre has expressed a willingness to engage in treatment and recognizes the need for professional help to address his substance use and mental health disorders. Despite his limited insight into the severity of his addiction, he is motivated to make positive changes and actively participate in a structured recovery program.

Placement Grid Level of Care - LOC Level 3: PHP

Clinician Recommended LOC Level 3: PHP

Clinical Justification if Placement Grid LOC is different than Clinician Recommended LOC

PHP (Partial Hospitalization Program) is the most appropriate level of care for Pierre due to the severity of his substance use disorders and co-occurring mental health conditions. Although the placement grid may suggest a less intensive level of care, Pierre’s need for daily structured therapeutic interventions and the complexity of managing his generalized anxiety disorder and bipolar I disorder require PHP. His inability to effectively manage his substance use and mental health on his own, along with his high level of stress and lack of a supportive recovery environment, further justify PHP. Outpatient or lower-intensity care would not provide the level of supervision, support, and structure necessary to prevent relapse and stabilize his condition.

Preliminary Recommendations Based on Assessment:

Pierre Santos MR SIR2024-154 DOB: 06/21/2006 Male MEDICA HARMONY by MEDICA Bronze Premier F11.20 Opioid use disorder, Severe,F12.20 Cannabis use disorder, Severe,F13.20 Sedative, hypnotic, or anxiolytic use disorder, Severe,F41.1 Generalized anxiety disorder,F31.4 Bipolar I disorder, Current or most recent episode depressed, Severe

Pierre requires PHP Level of Care to provide structured support for both his substance use and mental health disorders. Individual therapy will help address emotional trauma and develop healthier coping mechanisms, while group therapy will offer peer support and encourage accountability in recovery. Medication management is necessary to stabilize his mood and anxiety disorders, and family therapy will help rebuild strained relationships and improve his home environment. Psychoeducational groups will provide Pierre with a deeper understanding of his addiction and mental health conditions, and case management will ensure ongoing support and coordination of care throughout his recovery.
